Feb. 10, 2011

The Disabled American Veterans, Department of Connecticut proposes that a change in the appointment process of the Board of Trustees, Department of Veteran Affairs is needed.

It is distressful to the Disabled American Veterans, the third largest veterans' organization in the State of Connecticut, not to have representation on the Board of Trustees for the last twenty months (since June 2009).

We in the Disabled American Veterans, feel that all major veteran organizations should contribute to solving veteran issues on the Board of Trustees.

To ignore an organization that has been in existence for ninety years and was started because the federal government ignored the plea of the weary, the wounded veteran of WWI is morally wrong.

We in the DAV are hoping that this legislature will right a wrong and open the door of the DVA for the veterans that we represent.

Sincerely;

JIM CLYNCH, Commander
Dept. of Connecticut
Disabled American Veterans
